Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The examiner acknowledges the amendment filed November 28, 2006.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 - 41 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 7,009,511 to Mazar et al. (hereinafter Mazar).

Mazar et al. discloses the following claim limitations:

Claim 1. A method, comprising:

receiving at a mobile wireless event handling device, a first signal via a first network, from a monitor adapted to convey information relating to physiological parameters (Column 4 - Lines 22 – 32, Column 15 - Lines 22 - 45, Figure 5 Items 606 and 608), the first signal including information corresponding to the physiological parameters (Column 3 - Lines 55 - 58) and an identification of the monitor (Column 10 - Lines 6 - 10); and

transmitting from the mobile wireless event handling device, a second signal via a second network (Column 15 Line 46 - Column 16 Line 3, Figure 5 Item 612), the second signal including at least information corresponding to the identification of the monitor (Column 10 -

Lines 6 - 10).

Independent claims 12, 24, 33 and 39 are rejected on substantially the same basis as claim 1. See previous office action for rejection of dependent claims.

In regard to new claims 40 – 41, Mazar et al. is sufficient to reject the additional limitations (Column 10 - Lines 6 – 10, Column 15 - Lines 22 - 45, Figure 5 Item 606).

Response to Arguments

Applicant's arguments filed November 28, 2006 have been fully considered but they are not persuasive. Applicant argues Mazar et al. discloses only a single network. It is the applicant's belief that Mazar et al. does not disclose the invention as presently written. The examiner disagrees.

Mazar et al. discloses two networks. The first network in Mazar et al. is a bidirectional communication signal between a medical device and an ITU (Column 15 - Lines 22 - 45, Figure 5 Items 606 and 608). The second network in Mazar et al. is a communication medium used by the ITU and data repository (Column 15 Line 46 - Column 16 Line 3, Figure 5 Item 612).

Therefore, Mazar et al. rejects the claims as presently cited.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
